

New newsletter rounding up the project – but the conversation continues!

Our latest newsletter has gone out and you can read it [here!](#)

In this edition, we're looking back at the past two years of the project and how far we have come now that the project has ended. However, the conversation continues as all project partners are committed to continue to take innovative assessment methods in entrepreneurship education forward.

We will continue to hear interesting conversations on this blog, share updates in our newsletter and with your help build on the collections of tools, methods and examples on this website. **Get in touch if you want to chat, contribute or simply learn more – we are always looking to hear from teachers, policy makers, researchers and everyone else.**
